

## See, the Conqueror Mounts in Triumph

D                    G                    D                    A  
See, the Conqueror mounts in triumph; see the King in royal state,  
D                    G                    D                    A                    D  
riding on the clouds, his chariot, to his heavenly palace gate.  
A                    D/A    A                    D/A    A    F#    G    A  
Hark! the choirs of angel voices joyful alleluias sing,  
D                    G                    D                    A                    D  
and the portals high are lifted to receive their heavenly King.

D                    G                    D                    A  
While he raised his hands in blessing, he was parted from his friends  
D                    G                    D                    A                    D  
while their eager eyes behold him, he upon the clouds ascends;  
A                    D/A    A                    D/A    A                    F#    G    A  
he who walked with God and pleased him, preaching truth to every age,  
D                    G                    D                    A                    D  
he, our Enoch, is ascended to his everlasting home.

D                    G                    D                    A  
Intercedes for human sinners there he sits at God's right hand;  
D                    G                    D                    A                    D  
one day to be resurrected, will with him in glory stand:  
A                    D/A    A                    D/A    A                    F#    G    A  
Jesus reigns, adored by angels; man with God is on the throne;  
D                    G                    D                    A                    D  
mighty Lord, in thine ascension we by faith behold our own.
